## **DETAILED ACTION**

### ***Status of the Claims***

1. Amendment filed February 6, 2007 is acknowledged. Claims 10 and 15 have been cancelled. Claims 11 and 12 have been amended. Claims 1-5 and 11-14 are pending.

### ***Decision by BPAI***

2. In the Decision rendered October 31, 2006, the BPAI reversed the obviousness rejection of claims 11 and 14 because: neither Hsu nor Yang teaches or would have suggested to the skilled artisan to use an etching step in lieu of the chemical mechanical polishing planarization of the protective cap layer.

Claims 12 and 13 are also reversed because the applied references neither teach nor would have suggested to the skilled artisan to use a photoresist material in lieu of the oxide protective cap layer.

Therefore, the claims are allowed as follow.

### ***Allowable Subject Matter***

3. Claims 1-5 and 11-14 are allowed.

4. The following is an examiner's statement of reasons for allowance: claims 1-5 and 11-14 are allowed by the BPAI because: the etching *is* chemical mechanical polishing planarization and the protective cap layer *is* the photoresist material.
